CANECT 2014

Admit One

You are invited to attend:

The 22nd annual

Canadian Environmental Conference and Tradeshow (CANECT '14)

Gold-star environmental compliance training
Register today to avoid disappointment!

April 28-30, 2014
at The International Centre
6900 Airport Road, Mississauga, Ontario

Apr. 30 Luncheon speaker: CFL Legend; Argos' V-C; Michael "Pinball" Clemons

1

Canada's leading environmental management and compliance training forum offers you a choice of nine cost-effective and practical professional development courses designed to help you meet your environmental responsibilities.

2

Conveniently co-located with "Partners in Prevention 2014" CANECT offers you free admission to inspiring keynotes and Canada's largest environmental and health & safety exhibition - over 350 exhibits and displays featuring the latest in environmental and EHS solutions.

3

Multiple-registration discounts provide a great opportunity for key operational personnel to collectively appreciate their vital role in implementing environmental best practices, compliance and due diligence.

Apr. 29 Keynote speaker: World-renowned innovator, Tom Wujec

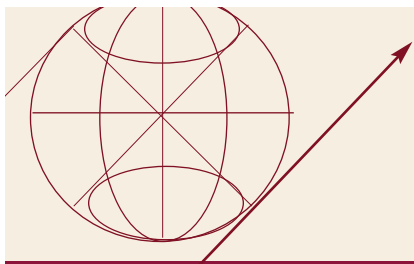

Register for all 3 days at CANECT and qualify for draw to win an I-Pad Mini

Help us help the environment! This brochure has been printed on paper certified by the Forest Stewardship Council of Canada and has been designed as a self-mailer, to remove the need for an envelope. While every effort has been made to ensure accuracy, if the adjacent label is incorrect, **please make sure that this brochure is re-routed to the person in your organization for whom environmental compliance is an important concern.** Please fax label corrections to 905-

WELCOME TO CANECT 2014 April 28 - 30, 2014

Join us at Canada's leading environmental compliance training event

Once again, we extend an invitation to you and your colleagues to join us this year at our **22nd Annual Canadian Environmental Conference & Tradeshow (CANECT)**.

CANECT offers a great, one-stop opportunity for you and your colleagues to obtain the latest in environmental compliance information, along with the best in proven management practices, innovative technologies, and practical solutions.

Environmental compliance training has long been recognized as an essential component of the ISO 14001 Environmental Management Standard (EMS) and is an acid test of an organization's commitment to "environmental due diligence".

In an age of increasing scrutiny, such training is not merely an option, it is a necessity.

CANECT courses help registrants increase awareness about the unacceptable human and financial costs of lax operational and management practices while providing practical solutions to everyday issues and concerns.

That's why CANECT courses continue to be the #1 choice of both experienced environmental practitioners, as well as those new to the field.

It's why CANECT courses attract the best speakers and why Ontario's Ministry of the Environment (MOE) officials have described them as 'the industry standard'.

After more than 25 years in the environmental field, we believe in a policy of inclusion and broad-based environmental compliance. Our low registration fees and generous multiple discounts are designed to make it possible for all members of your team to attend.

Fortunately, over the years, Canada's environmental professionals have responded.

Every year, more and more of Canada's leading organizations register their EH&S teams for CANECT's training courses.

They recognize that an informed colleague is often the best defence against the environmental tragedies that can so easily affect us all.

We urge you to join us at this year's CANECT. Find out how our courses reinforce efforts to improve environmental performance. Review the courses offered. Choose those that suit your needs. Register your team today and join us at CANECT 2014 - Canada's leading environmental compliance forum.

CANECT meets the need for practical training in environmental compliance

You can rely on CANECT's proven formula to:

- ✓ Update your knowledge of new regulations;
- ✓ Access leading experts for one-on-one solutions to specific compliance problems;
- ✓ Gain insights into new standards and best management practices;
- ✓ View the latest EHS technologies and solutions;
- ✓ Obtain comprehensive reference and guidance materials to take back and share;
- ✓ Qualify for valuable daily 'door-prizes';
- ✓ Receive a Certificate of Attendance featuring valuable Continuing Education Credits (CECs); and
- ✓ Demonstrate your organization's commitment to environmental responsibility and due diligence.

LAW

1A

REGULATION & COMPLIANCE

An indispensable introduction and update on current and future trends in environmental regulation in Canada presented by Bennett Jones LLP's Environment, Health & Safety Group and invited guest speakers.

• Introduction to environmental law in Canada

- Where environmental laws come from
- Environmental matters and the Constitution

• Discharges and spills

- Understanding requirements relating to spills and discharges
- Reporting and mitigation obligations
- Key concepts, including adverse effect and impairment to water quality

• Emergency preparedness and response

- How to prepare for, and respond to, an emergency

• Environmental approvals

- The Environmental Approvals Modernization process
- ECA and EASR approvals

• Regulation of air, noise and GHG emissions

- Regulation of air, noise and GHGs
- Key permit and approval requirements

2014
update

9:00 a.m.

Noon

Complimentary buffet luncheon provided for all

1:00 p.m.

• Regulation of water and of waste

- Water and wastewater regulation, including the *Ontario Water Resources Act* and *Clean Water Act, 2006*
- Key requirements with respect to waste
- What is waste?
- The new *Ontario Waste Reduction Act*

• Regulation of substances

- *Canadian Environmental Protection Act, 1999 (CEPA)*
- Federal Chemicals Management Plan
- The introduction of the Global Harmonized System (GHS)
- *Toxics Reduction Act, 2009*

• Enforcement and due diligence

- Charges, administrative penalties, orders and warnings
- The federal *Environmental Enforcement Act*
- Inspections and investigations
- Establishing due diligence

• Contaminated property and brownfields

- Contaminated properties - liabilities & opportunities

• Question & Answer

Featured speakers from Bennett Jones LLP's Environment Health and Safety Group include: Leonard Griffiths; Sarah Gilbert; Radha Curpen; and Julia Schatz.

5:00 p.m.

See below for CANECT Day 2 program

The Program: Day 1 Monday, April 28

CANECT 2014 is spread over 3 days - April 28, 29 and 30, 2014. Registrants can choose to attend one, two or three days. Substantial discounts reward multiple registrations.

On Day 1 (April 28): Registrants can choose one out of the three following courses offered (1A, 1B or 1C). (Note: Day 1 is a 'conference only' day. Trade show dates are April 29 and 30.

1A Environmental Regulation and Compliance 2014 - Essential Overview and Update

CANECT's essential introductory and update course - updated bi-annually and presented in association with leading environmental lawyers from Bennett Jones LLP - has, over 22 years, established a 'gold star' reputation as Canadian industries' chosen source for concise, authoritative and practical training in environmental regulation, compliance and due diligence.

1B Waste: Management, Diversion & Stewardship

This new course, chaired by Peter Klaassen of RWDI, is designed to help industry, private sector and municipal managers keep up to date with new waste management requirements while meeting complex challenges ranging from confronting practical problems of dealing with odour and dust to dealing with the duties and costs of extended product stewardship, reduction and diversion plans, and new treatment options.

1C Brownfields: Identification, Delineation, Option Assessment and the Future

Now in its 20th year, this annual CANECT 'Brownfields' clinic, led by leading environmental lawyer, Janet Bobechko, has become the 'go to' source for all engineers, consultants, municipalities, lawyers, planners, site-owners, investors, insurers, developers and MOE staff who need to gain practical insights into the new rules governing soil management, Records of Site Condition, and Phase I and Phase II site assessments. Learn how new soil standards and draft new streamlined brownfields site approvals will impact liability and future development.

Day 1 (April 28) Courses: Approximate times

8:00 - 9:00 a.m.: Registration + continental breakfast
9:00 a.m. - noon: Morning program in conference rooms
Noon - 1:00 p.m.: Lunch
1:00 p.m.: Sessions resume in conference rooms
4:30 - 5:00 p.m. Sessions end
(Refreshment breaks are held mid-morning and mid-afternoon)

For best value, choose one of the courses described above, then choose two additional courses from the courses offered on Days 2 & 3 (open page to see full details)

WASTE

1B

MANAGEMENT & STEWARDSHIP

This course is designed to help industry, private sector and municipal managers, and product stewards meet the challenges of dealing with waste, waste reduction and diversion, and permitting waste management projects.

• Integration of Canada / Ontario's regulatory regime

- Federal and provincial – Acts, regulations and roles
- Legal rights, responsibilities and due diligence
- *Jacquelyn Stevens, Willms & Shier Environmental Lawyers LLP*

• What is waste? What should be waste?

- Definition of waste materials
- Exemptions and recycling
- *John Georgakopoulos, Willms & Shier Environmental Lawyers LLP*

• The Waste Reduction Act 2013

- Update and behind the scenes

• Waste generation, classification, and processing

- Classification of Waste
- Processing of waste – key considerations
- Selecting appropriate technologies
- *Peter Klaassen, RWDI*

• Waste audits and waste reduction work plans

- Guide to waste audits and waste reduction work plans for Industrial, Commercial and Institutional sectors as required by O.Reg.102/94
- Developing a Waste Reduction Work Plan
- *Annik White, RWDI*

• Manufacturing – Planning for zero waste to landfill

- Implementing a comprehensive Waste Diversion strategy
- *Speaker TBA*

• Extended and Individual Producer Responsibility

- Municipal role
- Stewards' perspective
- Diversion programs: Blue Box, Used Tires, Waste Electrical and Electronic Equipment (WEEE), Municipal Hazardous and Special Waste (MHSW), Industry Stewardship Plans (ISPs)
- *Brad Wright, ERC Environment and Resources Consulting*

2014
update

LAND

1C

BROWNFIELDS 2014

Chaired by Janet L. Bobechko (Certified Specialist Environmental Law) Partner at Blaney McMurtry LLP, this one-day expert forum provides the practical, legal and technical background to successfully navigate the new rules governing contaminated sites.

• Overview of brownfield and contaminated sites

- Overview of the regulatory regime for contaminated land
- Progress on reforms to Brownfields Regulation O.Reg.153/04
- *Janet Bobechko, Blaney McMurtry LLP*

• Brownfields 2014: update on current issues

- Moving forward to implementation: Setting the stage
- Excess soil management – Regulatory and practical developments
- Liability strategies – *Kawartha Lakes; Nortel*
- Closing deals – risk management and insurance option
- *Janet Bobechko, Blaney McMurtry LLP*

• The clash of planning and brownfields rules

- How to deal with long term monitoring requirements
- Impact on planning permissions
- Risks for developers and municipalities
- *Marc Kemerer, Blaney McMurtry LLP*

• Identification: Phase I Site Assessments: How the details assist in business decisions

- How to advise clients on what they need
- How do assessments differ?
- When to use O. Reg.153/04 vs CSA standard
- What are "potentially contaminating activities"?
- Limitations and constraints
- Timing, cost issues and level of effort
- *Marc Trudell, LVM Inc.*

• Delineation: Phase II Site Assessments

- Different types and scope of delineation assessments
- Consultant discretion: what is it & how does it apply to Phase II assessments?
- Consultant responsibility relative to Ministry or other standards
- The onus on the "qualified person" (QP) to use his/her discretion to make decisions re: identifying and determining samples, etc.
- Guidelines for the decision-making process
- Addressing consultants' and "other interested party" concerns
- *Steve Quigley, Conestoga-Rovers & Associates*

2014
update

trants: The lunch break on April 28 lasts approx. one hour - from 12 noon until 1:00 pm when sessions resume.

• Waste management master planning

- Planning and approvals
- Site selection and facility design considerations
- *Greg Taras, UEM*

• What to consider when selecting a waste management partner

- Defining your needs
- Research various approaches - approach(es) to use?
- *John Willms, Willms & Shier Environmental Lawyers LLP*

• Environmental Assessments (EA) for waste management

- EA Process, and Hearings
- Appeals - Environmental Review Tribunal, Ontario Municipal Board (OMB)
- Case Studies
- *Joanna Vince, Willms & Shier Environmental Lawyers LLP*

• Waste permits and approvals

- Environmental Compliance Approval (ECA) Process
- How ECA applications move through the system
- Pre-submission consultation opportunities
- Public consultation requirements
- Financial assurance
- Examples of standard terms and conditions
- Checklist for Technical Requirements for a Complete ECA Submission
- EASR requirements for non-hazardous waste transportation systems
- *TBA, Ministry of the Environment (MOE) (invited)*

• Environmental management considerations & issues

- City by-laws and monitoring
- Common problematic odour sources
- Noise – avoid it, mitigate if needed
- Proper sampling techniques to avoid non-compliance
- *Phil Janisse and Brad Bergeron, RWDI*

• Multi-media ECA - ongoing issues / considerations

- Case study: landfill facility
- *Brad Bergeron, RWDI*

• Open Q & A

See below for CANECT Day 2 program

• Is Risk Assessment an effective tool?

- Risk assessment process and components
- Approaches and options discussed through case studies
- Risk management outcomes – what to expect
- New and emerging approaches to obtaining streamlined approvals
- *Cecile Willert, P.Eng., QPRA, Associate, Dillon Consulting Limited*

• Option Assessment - How to implement business decisions

- To remediate or not to remediate
- Brief summary of remediation options (that actually work)
- Implications on options for future site use
- How to develop a business case for the contaminated site redevelopment
- *David Hopper, WESA Inc.*

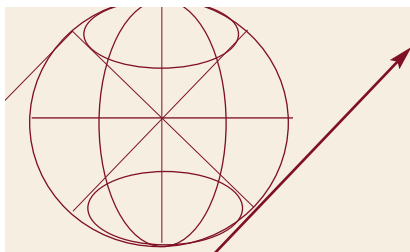

• Managing the consultant relationship

- Retaining consultants - retainer agreements, Master Service Agreement
- Legal exposures resulting from "Qualified Persons" sign-off
- Errors and omissions re: investigation reports, remediation options
- Liability and documentation issues
- *Janet Bobechko, Blaney McMurtry LLP*

• Roundtable panel discussion: The top 5 issues affecting the development of contaminated sites

- A wide ranging discussion on the top 5 issues facing the industry.
- Expert panel led by Janet Bobechko, Partner, Blaney McMurtry LLP, and including:
Cecile Willert, Dillon Consulting Limited;
Vico Paloschi, Pinchin Environmental,
David Harper, Kilmer Brownfield Equity Fund L.P. (invited); and
James Evans, RBC, Corporate Sustainability, Senior Manager and Environmental Risk

See below for CANECT Day 2 program

CANECT 2014

Program for April 29, (Day 2)

Professional Development Program Overview

The CANECT program of professional development courses is spread over 3 days (see the legend below).

Registrants can choose to attend one, two or all three days. It is therefore possible for each registrant to attend 3 of the 9 courses offered.

On April 29 (Day 2 of conference) registrants can choose one out of the three courses described on the following two pages (2A, 2B or 2C).

Multiple-day and multiple-registrant attendance provides your best opportunity to take advantage of the unique benefits presented by CANECT and is encouraged through discount pricing.

Comprehensive handout materials are provided free to all conference registrants.

The Program: Day 2, April 29

Choose one of the following courses offered on April 29 (Day 2)

2A Demonstrating and Documenting Environmental Due Diligence

Proof of environmental due diligence can provide managers with a first line of defence against environmental charges and save thousands of dollars in penalties. Yet new cases, such as *Castonguay Blasting*, illustrate the increasing stringency of this standard. This course provides practical insight into why it is vital to document and demonstrate environmental due diligence in dealings with employees, suppliers, contractors, consultants, stakeholders, the MOE and in commercial transactions.

2B Air Emissions: Complying with the new rules governing Air, Noise, Odours and GHG emissions

This bi-annual course, now in its 15th year, delivers Canada's most up-to-date and authoritative guide to complying with federal and provincial air, noise, odour and GHG emissions rules - including the just-released *NPC-300 Noise Standards For Land Use Planning And Environmental Compliance Approvals*. Gain practical insight to help you successfully manage air emissions and proactively deal with potential air, odour and noise-related nuisance issues.

2C Spills & Emergencies: Reporting, Contingency Planning, Communications and Response

The Lac Mégantic tragedy has sparked a slew of new rules to deal with environmental emergencies. New E2 Regulations, due to take effect this year, further expand mandatory requirements for contingency planning. New 2014 TDG regulations impose new rules governing crude oil shipments and disclosure to municipalities. Attend this course to gain expert insights into how you can plan for the 'unthinkable' while responding diligently to spills, leaks, and exceedences.

The "Buzz"

What registrants are saying about the new CANECT compliance courses

"This was my first exposure to an Envirogate conference and I was very impressed with the high level of professionalism and organization. ... I liked networking with others at my table concerning their environmental compliance issues. I thought that the majority of sessions were great... Thanks for a great three days! I will recommend it to others in OMAFRA's Environmental Management Branch."

Steve Redmond, Environmental Specialist / NASM, Environmental Management Branch, Ontario Ministry of Agriculture, Food and Rural Affairs

"Very knowledgeable moderators and common sense presentations. ... The first day (on Environmental Regulation and Compliance) was very comprehensive for a one-day presentation."

Maurice Pestowka, Manager, Corporate Environmental Affairs, AGS Automotive

"I appreciated the clear definition (of due diligence) and my ... responsibility for a duty of care. This was well presented."

Paul Campbell, EH&S Compliance Auditor, Hydro One.

"Very practical and conducted by professionals. Useful overview for newcomers as well as for experienced professionals."

Faisal Islam, Environmental Program Analyst, Green Manitoba

"All speakers were very knowledgeable. Handout materials were excellent."

M. Kaleem Khan, Chemical Specialist, Daymond Aluminum

DUE DILIGENCE

2014 update

9:00 a.m.

• What is environmental due diligence?

- What is environmental due diligence and why is it important to organizations, their employees and stakeholders?
- *Barry Weintraub, Rueter Scargall Bennett LLP*
- *Annie Thuan, City of Mississauga, Legal Services*

• Compliance with regulatory requirements

- Regulatory compliance reporting requirements, including the recent SCC decision in *R. v. Castonguay Blasting Ltd.*
- Establishing regulatory compliance reporting practices
- Implications of sharing information
- Regulatory powers to obtain information and disclosure requirements
- Protecting environmental reports – responding to requests for company documents
- Strategies for managing data storage & access: how to avoid pitfalls
- *Panel: Annie M. Thuan (Moderator), Barry Weintraub, Rueter Scargall Bennett LLP, Norm Rankin, Ministry of Environment, Legal Services Branch (invited, TBC)*

• Avoiding civil and regulatory liability

- The importance of due diligence in avoiding civil and regulatory liability
- Documenting your due diligence for defending claims and prosecutions
- *Tamara Farber, Miller Thomson LLP*

• What directors, officers and managers need to know

- Environmental duties of managers, directors and officers in Ontario
- Avoiding prosecution of directors & officers for environmental offences
- Establishing that directors and officers exercised "reasonable care"
- Indemnification and insurance coverage for directors and officers related to environmental risks
- Case study: *Northstar Canada*
- *Barry Weintraub, Rueter Scargall Bennett LLP*

Noon

Lunch break: The lunch break on April 29 and 30 lasts from

• Take this opportunity to tour more than 350 exhibits of the joi

2:00 p.m.

• Working with environmental consultants

- Reliance on consultants, contractors and lawyers
- Retaining a consultant - terms and conditions in retainer agreements
- Making the most effective use of the consultant's report
- *David Hopper, WESA*
- *Sarah Powell, Davies Ward Phillips & Vineberg LLP (TBC)*

• Management Systems and Due Diligence in practice: Samples and examples; do's and don'ts

- Environmental Management System in practice: Establishing an EMS
- Due Diligence and the EMS
- Standards and Best Management Practices
- Documenting Environmental Due Diligence
- Policies, Programs and Performance
- Reputation Management
- *Panel: Randy Sinukoff, Stantec; Jay Silverstein, York Region, (invited)*

• Dealing with mould, asbestos + other EHS issues

- Identifying & responding to mould, asbestos and other building hazards
- The risks of abating the hazard
- The risks of leaving materials in place
- *Carolyn Adams, MMM Group*

• Environmental due diligence in transactions

- **Acquisition and sale of contaminated (potentially contaminated) assets**
- Preliminary considerations for vendors and purchasers
- Environmental due diligence investigative tools
- Agreements: warranties, indemnities, insurance & remedial obligations
- **Environmental provisions in commercial leases**
- The trick definitions: "Hazardous Substances" & "Environmental Laws"
- Remediation implications of "good repair" and "reasonable wear and tear"
- Allocating environmental risks and benchmarking contamination
- *Annie M. Thuan and Michael Fortier, Tory's LLP (TBC)*

5:00 p.m.

See below for CANECT Day 3 program

2

The bonus: Tuesday, April 29 (Day 2)

✓ Inspiring keynote speaker*

Tom Wujec

ROI: Return on Imagination

Tom Wujec
World Renowned Expert on Innovation

Born in Winnipeg, Canada, Tom Wujec speaks internationally on innovation: why it matters, why it is a vital engine of economic growth (especially today), and how to foster it. Wujec works with Fortune 100 companies to create innovation practices at all stages, from strategic planning to design and implementation.

He is also the leading advocate of *making work visible* within a company, of transforming ideas into images that enhance clarity and engagement and which lead to intelligent and successful new products, services and processes.

Tom Wujec's newest book *Imagine Design Create* was released at TED 2011 to rave reviews.

✓ **FREE admission to Canada's largest Environment Health and Safety Tradeshow**

✓ **Complimentary course materials**

✓ **Continental breakfast, lunch and refreshments included**

✓ **Prize draw for registrants attending CANECT tradeshow**

✓ **FREE parking and easy access**

* Note that keynote speeches associated with the 'Partners in Prevention' event begin at approx. 8.45 am. in Hall 1. Check times of keynote speeches on registration. Since regular CANECT sessions start at 9:00 am, choosing to hear a keynote speaker may mean missing some part of a CANECT course.

See below for CANECT Day 3 program

AIR

2B

AIR EMISSIONS

• Integrating the regulatory regime - air quality & noise

- Federal and provincial acts and regulations
- Municipal requirements: Bylaws on air quality, toxics, noise, sewer discharge
- Reporting requirements: – O. Reg.127, NPRI, others
- *Mark Vanderheyden, RWDI*

New for 2014

• Canada's Air Quality Management System (AQMS)

- Ontario's Air Quality Context
- The system and its five major components
 - Canadian Ambient Air Quality Standards
 - Base Level Industrial Emission Requirements
 - Air Zone Management Framework
 - Regional Airshed Coordination
 - Mobile Sources Working Group
- The path forward
- *Ken Smith, Ontario Ministry of the Environment speaker*

• How Ontario Reg. 419 regulates air emissions

- Introduction – How Reg. 419 operates to regulate industry
- Other regulations governing emissions to air
- Phase-in dates and NAICS codes
- Technical and site-specific standards
- Director discretion and power – the "Abatement Conversation"
- *John Georgakopoulos, Willms & Shier Environmental Lawyers LLP*

• Environmental Compliance Approvals and Reg. 419

- Compliance Under ECA – water, waste, air
- Types of Environmental Compliance Approvals
- Determination of Compliance with Yearly Schedules
- Site Specific Approvals
- Sector Specific Technical Standards – i.e. forestry, and others
- New MOE Guidance Documents
- Practical Side of Environmental Activity and Sector Registry (EASR)
- MOE proposal to delineate EASR and ECA sites
- *Anik White, RWDI*

• Case study: Working Through ECAs and Reg. 419

- Dealing with proposed standards

SPILLS

2C

SPILLS & EMERGENCIES

• Spills, leaks, discharges & emergencies: Legal framework

- Overview of the federal and provincial regulatory framework and the impact of recent cases (e.g. *Castonguay*)
- *Janet Bobechko, Blaney McMurtry LLP*

Updated for 2014

• Federal Environmental Emergencies Regulations

- Environment Canada's role in spills and emergencies
- Impact of proposed 2014 amendments to the E2 Regulations
- *Dale Gratian, E2 Compliance, Environment Canada*

• Transport-related spills and emergencies: Road and rail

- New TDG Regulations re: crude oil shipments
- Communications with municipalities re: rail shipments
- *Transport Canada (TBC)*

• Spills Action Centre: Specific actions + reporting requirements

- Key legislative requirements re: Spills reporting in Ontario
- Emergency Management Ontario and the Office of the Fire Marshal
- What happens when you call the Spills Action Centre (SAC)
- Working with the Ministry's field response
 - *Gary Zikovitz, Manager, Ontario Emergency Management Program Coordinator, Spills Action Centre, Ministry of the Environment*

• Spill response - Legal issues and strategies

- Responding to regulatory investigations
- Effective due diligence practices
- Fines, sentences and environmental penalties (EPs)
- *Ralph Cuervo-Lorens, Blaney McMurtry LLP*

• Social media in environmental emergency management

- Best practices for using social media in an environmental emergency
- *Christel (Hollinger) Ivanyshyn, Perth County*

• Panel discussion: The release of information

- How much, how, when, by whom, through which media?
- *Gary Zikovitz, Christel Ivanyshyn, Janet Bobechko, Ralph Cuervo-Lorens*

rox. 12 noon until 2pm when sessions resume • Lunch is available in Hall 1, close to the CANECT Tradeshow Exhibit Hall area located Canadian Environmental Tradeshow and Workplace Safety and Prevention Services' (formerly IAPA) "Partners in Prevention"

• Legal and practical aspects of nuisance

• Case studies

- *Jacquelyn Stevens, Willms & Shier Environmental Lawyers LLP*

• Nuisance issues - Odour

- Odour complaints and how they play into the ECA process
- Why is land use planning so important?

• Toxic Reduction Act - Practical planning- O.Reg. 455/09

- What you need to know
- What things do you need to consider after December 31, 2013?
- *Brad Bergeron, RWDI*

• Nuisance issues - Noise and the new NPC-300

• Introduction to the new NPC-300

- What you need to know: Changes from previous guidelines
- Impact for industry
- Mitigation
- *Peter VanDelden, RWDI*

• NPC-300 – Pandora's Box

- Regulatory overview
- Class 4 implementation by municipalities
- Agreements and conditions
- *John Georgakopoulos, Willms & Shier Environmental Lawyers LLP*

• Implementation of NPC-300

- How to deal with uncertainty

• Industry perspectives on odour and noise issues

- Case study
- Challenges for environmental managers

• GHGs - getting the right approach; What lies ahead

- O. Reg. 452/09 Ontario's Approach to GHGs – emissions profiles
- GHG Verification, Accreditation, and Certification – Looking Forward
- What's next – Sector Specific Caps
- *Joanna Vince, Willms & Shier Environmental Lawyers LLP*
- *Mike Kennedy, RWDI*

• Recap of Regulatory Requirements – Air Quality & Noise

- Open Q and A

See below for CANECT Day 3 program

• Case history: Responding to a 'real world' event

- TBA

• Executive Officer Contingency Planning: Best 'real world' practices

- The role of senior management and ultimate responsibility
- Environmental Management System requirements for ER plans
- Industry, CSA and TSSA standards and requirements
- Plan objectives – manage, access, communicate
- Prioritize preventive preparedness and response measures
- Set up a structure and budget for equipment, training, and monitoring
- "Drill, baby, drill" - spill response exercises and practice
- *Cliff Holland, Spill Management Inc.*

• Making sure everyone gets out alive: New requirements under the Accessibility for Ontarians with Disabilities Act

- New requirements for individualized workplace emergency response plans under the *Accessibility for Ontarians with Disabilities Act, 2005*
- *William Anderson, Blaney McMurtry LLP*

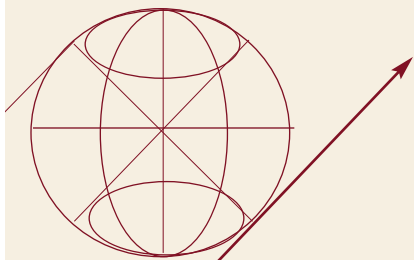

• Effective 'Corporate to Field' Command & Control Planning

- Develop location-specific response procedures and guidelines
- Designating an in-house emergency response team
- Dealing with 'time critical issues' and the 'hierarchy of events'
- Quick-check system for gathering the facts
- Establishing a capacity to 'size up' safety and danger factors
- Classification – Incidents, emergencies, disasters
- Interface with ER services, regulatory agencies and contractors
- *Cliff Holland, Spill Management Inc.*

• Insuring against spills & environmental emergencies

- Environmental regulatory drivers versus insurance contract drivers
- Clean up responsibility and payment responsibility
- Risk assessment on a spill covered by insurance
- *Mark Samis, AECOM*

CANECT 2014

Program for April 30 (Day 3)

Professional Development Program Overview

The CANECT program of professional development courses is spread over 3 days (see the legend below). Registrants can choose to attend one, two or all three days. It is therefore possible for each registrant to attend 3 of the 9 courses offered.

On April 30 (day 3 of conference) registrants can choose one out of the three courses described on the following pages (3A, 3B or 3C).

Multiple-day and multiple-registrant attendance provides your best opportunity to exploit the unique benefits presented by CANECT and is encouraged through discount pricing.

Comprehensive handout materials are provided free to all conference registrants.

The Program: Day 3, April 30

Choose one of the following courses offered on April 30 (Day 3)

3A Environmental Management: Tools and Examples

This course offers practical tools and examples to help you implement an environmental management system that works with similar standards covering health and safety, quality, and energy management. Environmental Management Standards under ISO 14001 are outlined, along with opportunities for integrating these with other management and sustainable development standards and improving the overall management system performance. A special environmental management forum provides registrants with a unique opportunity to learn from peers.

3B Water and Wastewater: Compliance and Due Diligence

New federal *Fisheries Act* regulations, changing the rules on the protection of fish habitats and on authorizations, took effect Nov. 25, 2013. In addition, new laws implementing source water protection plans will present new challenges for municipalities and industry alike. Attend this course to learn from the experts how these changes impact your compliance and due diligence responsibilities.

3C Approvals Modernization: The 'industry standard'

The new regime for environmental approvals took effect Nov. 1, 2011 and is still 'a work in progress.' This course, jointly presented by members of MOE's Approvals Modernization branch and approvals specialists at Golder Associates, has been called "the industry standard" for those wanting to keep up-to-date with the latest developments, as well as those seeking guidance on best practices for managing all types of approvals and permits. Take advantage of this unique opportunity to interact with the Ministry and learn how the latest developments will impact your responsibilities.

The Legend:

The 22nd Annual Canadian Environmental Conference and Tradeshow (CANECT) April 28 - 30, 2014 at The International Centre, 6900 Airport Rd, Toronto

At-a-glance overview of compliance courses:

1

Program for Day 1, April 28, 2014

Choose one out of the three courses offered on **April 28** >

1A

LAW
Regulation & Compliance: The essential introduction & update course

1B

WASTE MANAGEMENT DIVERSION & STEWARDSHIP
Update on corporate and municipal responsibilities

1C

LAND
Brownfields & Contaminated Soils: Working with the new rules

2

Program for Day 2, April 29, 2014

Choose one out of the three courses offered on **April 29** >

2A

ENVIRONMENTAL DUE DILIGENCE
Demonstrating and Documenting Environmental Due Diligence

2B

AIR, NOISE ODOUR & GHGS
Update on corporate and municipal responsibilities re: air emissions

2C

SPILLS and EMERGENCIES
Spills, leaks and incident reporting: contingency planning and response

3

Program for Day 3, April 30, 2014

Choose one out of the three courses offered on **April 30** >

3A

ENVIRONMENTAL MANAGEMENT
Practical Management Systems: Tools and Examples

3B

WATER and WASTEWATER
Compliance and Due Diligence for industries and municipalities

3C

APPROVALS MODERNIZATION
ECAs & EASRs: Compliance update from A-Z

The "Buzz"

What registrants are saying about the new CANECT compliance courses

"What I enjoyed most about the 3-day conference was the opportunity to hear from the MOE - With respect to the new modernization of approvals it was great to hear from those who had their hands on developing the process as well as those who will be dealing with our applications."

Alicia Corscadden, R.E. Poisson Engineering Inc.

"Having lawyers/MOE onsite allowed for better understanding of the topics ... they were all great presenters...."

Holly McDonald, ES Specialist, Labatt Breweries of Canada LP

"What I appreciated most ... was ...the high involvement of Ministry of the Environment delegates both in presenting material ... and being available to answer questions from the course participants."

Kristina D. Puterbough, Pickering Environmental Compliance, OPG

"I liked the interaction with the guest speakers on the topics and the feedback from them. They were all very professional."

Kevin Grosbeck, Environment and Safety Supervisor, Great Lakes Copper Inc.

"It's all great information. All speakers are great and offer a lot of opportunity for questions with great answers."

Cheryl Masse, EHS Specialist, TS Tech Canada

MANAGEMENT SYSTEMS

2014
Update

PRACTICAL MANAGEMENT SYSTEM TOOLS AND EXAMPLES

Presented by Randy Sinukoff, M.A.Sc., P.Eng., EP(EMSLA), Stantec Consulting Ltd.

• Management system models

- **Evaluating business impacts and risks**
 - Voluntary vs. regulatory controls
 - Stakeholders and risk tolerance
 - Life cycle/value chain approach
 - Randy Sinukoff, Stantec Consulting Ltd
- **Overview of ISO Management System Standards**
 - Integrating environment (14001); health & safety (45001); quality (9001); and social responsibility (26000) approaches
 - Randy Sinukoff, Stantec Consulting Ltd
- **Engaging with stakeholders**
 - Strategic planning and risk management
 - Prioritizing communications and corporate reporting
 - Recent trends and best practices
 - Case studies
 - Wesley Gee, The Works Design Communications Ltd.

• Improving management system planning and performance

- **Managing by fact**
- **Conducting baseline assessments**
 - Footprints
 - Compliance audits
- **Examples of footprints (carbon, water, materials)**
 - Case study:
 - ISO 50001 (Energy Management Systems)
 - Experiences with measuring performance
 - Andrew Penner, Stantec Consulting Ltd.

Workshop #1: Measuring performance

Lunch break: The lunch break on April 29 and April 30 lasts 1 hour
• Take this opportunity to tour more than 350 exhibits of the show

• Integration and effectiveness

- **Moving from operational efficiency to opportunity**
 - **Examples of integrated topics and frameworks** (e.g. PAS 99, Global Reporting Initiative, Towards Sustainable Mining and ISO 26000)
 - **Use of resources**
- Workshop #2 – Integrating Management Systems and Sustainability

• Applying management systems – Environmental managers' forum and panel discussion

- **Environmental programs**
 - Murray Fulmer, Purolator Courier
- **EMS and sustainability**
 - TBA*, Husky Injection Molding Systems
- **Emergency preparedness in action**
 - Jonathan Kahn, Blake Cassels & Graydon LLP
- **Application of 'Towards Sustainable Mining'**
 - Christopher Scholl, First Quantum Minerals
- **Summary of key concepts**

• The business case for innovation and improved environmental performance

- **Building on the baseline**
- **Performance metrics**
- **Self-Assessment and Action Planning**

Workshop #3 – Identifying gaps and actions – next week's To-Do List

* See most recent speaker updates by clicking on the conference brochure at: www.enrivate.ca

3

The bonus: Wednesday, April 30

✓ Inspiring keynote speakers*

Morning keynote:

How ParticipACTION is Helping Canadians Get Moving and Get Living

Kelly Murumets
President & CEO, ParticipACTION

Since reopening in 2007 under the leadership of Kelly Murumets, ParticipACTION has developed an extensive network of advocates and partners to help them achieve the goal of helping Canadians to *Get Moving and Get Living*. Kelly will share the journey of ParticipACTION in becoming the national voice of physical activity in Canada. She'll talk about the importance of social marketing, strong partnerships and communities of practice in creating the social shift that is necessary to achieve their goal.

Luncheon speaker:

Winning Against the Odds

Michael "Pinball" Clemons
CFL Legend | Toronto Argonauts Vice-Chairman

Few people exemplify the qualities of personal excellence, teamwork, community leadership, and overcoming the odds better than CFL legend Michael "Pinball" Clemons. With boundless energy, Pinball's talks centre on the potential for each of us to achieve anything we set our minds to. Unabashedly emotional and impactful, he shows audiences how to put heart into everything they do. In 2009, "Pinball" founded the Michael "Pinball" Clemons Foundation, which is dedicated to helping disadvantaged youth. He is also currently working with Marc and Craig Kielburger, founders of Free the Children, in an initiative to build schools and clean water systems in Africa.

- ✓ FREE admission to Canada's largest EH&S Trade show
- ✓ Complimentary luncheon address
- ✓ Prize draw - exclusively for registrants
- ✓ FREE parking and easy access

* Keynote speeches associated with 'Partners in Prevention' begin at approx. 8.45 a.m.. Check exact time of keynote on registration.

9:00 a.m.

Noon

2:00 p.m.

5:00 p.m.

WATER

3B

WATER & WASTEWATER

New federal Fisheries Act and regulations are introducing new penalties for pollution and mark a major shift from habitat protection to fisheries protection; new source protection plans will place new restrictions on industry; new climate adaptation strategies will become a major part of environmental due diligence. Attend this course to find out how to meet these current and future challenges.

New for
2014

- **The regulatory regime for water and wastewater**
 - **Overview of the framework for regulating water**
 - Key federal, provincial and municipal acts and regulations
 - Julie Abouchar, Willms & Shier Environmental Lawyers LLP
- **What new Federal Fisheries Act regulations mean for you**
 - **Federal Fisheries Act and environmental protection**
 - Impacts of Nov. 25 2013 changes to section 35 authorizations
 - Cari-Lyn Epp, EcoMetrix Inc.
- **Provincial update: Moving forward with SPPs**
 - **The Clean Water Act: Source Protection Plans**
 - To protect drinking water sources against threats from existing and future activities, businesses and institutions will be required to undertake actions to reduce threats from specified activities.
 - Beverley Thorpe, CTC Source Protection Region
- **Future challenges and opportunities**
 - **Water Opportunities Act: Harnessing new water technologies**
 - Nick Reid, Ontario Clean Water Agency
 - **Climate change adaptation: What it means for the management of water**
 - conducting infrastructure climate change risk assessments
 - flood insurance for corporations
 - prioritizing actions to increase resiliency of infrastructure
 - developing a climate change adaptation strategy at the local level
 - Blair Feltmate, Chair, Climate Change Adaptation Project (Canada)
 - Hazel Breton, Hamilton Conservation Authority

ECA_s

APPROVALS MODERNIZATION

2014
Update

- **5-step process to take advantage of Approvals Modernization**
 - Five step process to receiving a timely approval
 - What are your requirements under the new approvals and permits process?
 - Sean Capstick, Golder Associates Ltd.
- **Step 1: Determining and understanding Approval needs/overview of the regulatory framework**
 - Overview of the approval requirements related to the discharges to air, noise, industrial sewage, permits to take water and waste approvals including changes to Environmental Compliance Approvals (ECAs)
 - Specific examples of situations that do and do not require approval
 - Penalties for not obtaining approval
 - Discussion of the increased focus on the Public's Appeal Rights
 - C.W. Daniel Kirby, Oslers LLP
- **What's new: Approvals modernization and what it means to you**
 - Overview of the Approvals Modernization Process in Ontario
 - Lessons learned since Oct. 31, 2011
 - New activities and sectors being considered for the Registry
 - What's next in approvals
 - Doris Dumais, Director, Modernization of Approvals Project, MOE (invited)*
- **Q & A with MOE Modernization of Approvals director**
- **Approvals Modernization - A Technical Consultant's Perspective**
 - Technical Panel Discussion – 5 Step Process to Environmental Approvals Modernization and Obtaining an ECA in a timely manner**
 - New ACME sample application packages
 - Case study based discussion with practical tips for your project
 - Learn tips for Air, Noise, Industrial Sewage, Storm Water, Permits to Take Water and Waste Approvals.

prox. 12 noon until 2pm when sessions resume • Lunch is available in Hall 1, close to the CANECT Tradeshow Exhibit Hall area
adian Environmental Tradeshow and Workplace Safety and Prevention Services' (formerly IAPA) "Partners in Prevention" Expo!

- **Municipal update: Water discharges and energy conservation**
 - **Municipal Sewer-Use By-Law compliance**
 - Current and future trends for wastewater/stormwater discharge requirements
 - **Energy efficiency and wastewater optimization**
 - Dr. Hamid Salsali, University of Guelph
 - Dave Ellis, Geosyntec Consultants Inc.
 - **Ecotoxicity Testing and Toxicity Investigations: A case study with a municipal effluent**
 - Lesley Novak, AquaTox Testing and Consulting Inc.
- **Industrial regulatory requirements**
 - **Industrial Water and Wastewater Approvals and Permits under the new modernization model: New initiatives**
 - Doris Dumais, Ministry of the Environment, (TBC)
- **Enforcement and due diligence**
 - **Spills, Leaks, Exceedences and Orders**
 - Dealing with Ministry inspections and investigations
 - Impact of spills and contingency planning regulations
 - Enforcement and environmental penalties (EPs)
 - Richard Butler, Willms & Shier Environmental Lawyers LLP
- **Due diligence defence to an environmental prosecution: A Fisheries Act case study**
 - **Regina v. Imperial Oil: Water and Wastewater Due Diligence Case Study.**
 - Marc McAree, Willms & Shier Environmental Lawyers LLP asks "what would you have done?"
- **Closing remarks**

- **Step 2: Pre-submission consultation**
 - Pre-consultation with District Offices and Approvals Branch (where required)
 - Strategies to manage public input and EBR comments to minimize delays in the approval process
 - Multi Media Approvals, cumulative effects and when actions beyond compliance are necessary
 - Enhanced Public consultation for Green Energy Projects
- **Step 3: Accepted practices and processes - Understanding information requirements**
 - Key issues to obtain your ECA - understanding the approval process – best practices and pitfalls
 - Learn about the latest changes to the MOE guidance documents and practices including:
 - o NPC 300 noise guidance document
 - o How the 2016 chromium air quality standards may affect welding operations
 - o New Ontario Air Quality and Technology standards
 - o Updated Waste Guidelines
 - o Limited Operational Flexibility and how to define a large Operating Envelope to maximize flexibility and minimize need for amendments
 - o Strategies on requesting a multi-media approval and when not to
 - o Implementation issues with the ECA and EASR for registerable activities
 - o Additional technical supporting documents necessary to obtain approval (e.g., ESDM Reports, AAR, SWM Plan, Assimilative Capacity Study, etc.)
- **Step 4: Creating high quality reports**
 - Guidance on creating a high quality report and managing the "new-smart" application package
 - Accessing the new Access Environment public search engine and Application Package Databases
 - Enhanced application screening - making sure you supply the minimum information requirements to make sure your application is not returned
- **Step 5: ECA review and negotiation**
 - So you have your Draft ECA – what's next? Understanding and reviewing ECA conditions; negotiation with MOE – ECA conditions
 - Golder Associates Ltd. Panel: Sean Capstick; Peter Brown (Consultations); Natalie Hamilton (Air Quality); Paul Niejadlik (Noise); Steve Auger (Stormwater); Melanie Kennedy (Surface Water and PTTW); Jennifer Baron (Waste).

You are invited! Join us! Update your knowledge, bring your staff and join Canada's environmental community for three days of inspiring professional development at Canada's largest and most cost-effective environmental compliance training event!

CANADIAN ENVIRONMENTAL CONFERENCE & TRADESHOW 2014 REGISTRATION

Please use a separate registration form for each delegate - Photocopy as needed

TO REGISTER: Once you have decided on which courses you and your colleagues want to attend, simply complete and send the adjacent Registration Form(s). Alternatively, register online via: <https://www.microspec.com/reg/CANECT2014>

YES! Reserve a place for me and my colleagues* at CANECT 2014 (at the International Centre, 6900 Airport Road, Mississauga [Toronto], Ontario, Canada)

My name is: (please print)

Job title:

Organization:

Street address:

Town: Prov: Post Code:

My phone# is: () My fax # is: ()

My email address is:

I am signing up for the following course(s): + +
(Identify course selection by letter and number eg. 1A + 2B + 3A etc. [see legend opposite])

*** IMPORTANT: When registering multiple registrations, fill-in a separate Registration Form for each delegate – (copy this form as needed).**
Fax or mail in all forms together to be sure to qualify for discounts (see below).

1	Program for Day 1, April 28, 2014		
Choose one out of the three courses offered on April 28 >	1A	1B	1C
	LAW Regulation & Compliance: The essential introduction & update course	WASTE MANAGEMENT DIVERSION & STEWARDSHIP Update on corporate and municipal responsibilities	LAND Brownfields & Contaminated Soils: Working with the new rules
		
2	Program for Day 2, April 29, 2014		
Choose one out of the three courses offered on April 29 >	2A	2B	2C
	ENVIRONMENTAL DUE DILIGENCE Demonstrating and Documenting Environmental Due Diligence	AIR, NOISE ODOUR & GHGs Update on corporate and municipal responsibilities re: air emissions	SPILLS and EMERGENCIES Spills, leaks and incident reporting: contingency planning and response
		
3	Program for Day 3, April 30, 2014		
Choose one out of the three courses offered on April 30 >	3A	3B	3C
	ENVIRONMENTAL MANAGEMENT Practical Management Systems: Tools and Examples	WATER and WASTEWATER Compliance and Due Diligence for industries and municipalities	APPROVALS MODERNIZATION ECAs & EASRs: Compliance update from A-Z
		

COURSE FEE FOR SINGLE REGISTRATION
 • Single-day registration = \$695 + HST per person
 • 2-day registration = \$1095 + HST per person
 • 3-day registration = \$1485 + HST per person

REGISTER 3 DAYS AND ENTER DRAW TO WIN AN I-PAD
 Note that by registering for all three days at CANECT you save \$600 off the cumulative single-day rate and pay just \$495 or less per course. In addition, when you register to attend all three days at CANECT you are automatically entered in a draw to win a brand-new I-Pad! It's by far your most cost-effective option!

DISCOUNTS FOR MULTIPLE REGISTRATIONS
 CANECT generously rewards multiple registrations - by joining Canada's major corporations and registering your entire team, you immediately access substantial discounts for 2- and 3-day attendance (see 'payment options' box for details).

ALL REGISTRATION FEES INCLUDE:
 • FREE hand-out materials, workbooks and proceedings
 • FREE PASS to attend keynote speakers and both the environmental and health and safety tradeshow
 • Complimentary breakfast, coffee and lunch
 • Certificate of Attendance showing Continuing Education Credits (CECs) on completion

CANCELLATIONS POLICY:
 Refunds will be given for cancellations received in writing by April 14, 2013. Refunds cannot be given after this time. Delegate substitution is permitted at all times. Please note, if you register for the session and do not attend, you are liable for the full fee.

ACCOMMODATION AND HOTEL DISCOUNT:
 CANECT has arranged a special room rate of \$115.00 per night at the Sandman Signature Hotel Toronto Airport. <www.sandmanhotels.ca>. The hotel is located at 55 Reading Court, Toronto, Ontario, M9W 7K7, which is about 3 km east of the International Centre. Reservations can be made by telephone at 1-800-SANDMAN or 416-798-8840 x 2, or through e-mail at res_toronto@sandman.ca **Individuals must state that they are with CANECT to receive special group rates.**

PROGRAM CHANGES:
 The organizers reserve the right to change the program content and to substitute speakers and content where necessary without further notice. Should circumstances require it, the organizers also reserve the right to relocate and reschedule this event within a six-month period of the scheduled date and assume no liability for these changes.

Payment options

1. A cheque (payable to Envirogate Event Management Inc.) will be mailed for:

- Single day, single person course registration..... = \$ 695
